## What you know = How much you grow

April is Financial Literacy Month, and it might be a coincidence that it's the same time of year that people are planning, cleaning, and planting their summer gardens. It's not uncommon to do some reading, watch some videos and/or seek input from a professional at the nursery as to how to maximize this year's garden (I know my wife Sonya does this every year). Armed with more knowledge and a clear plan, we dream of a lush garden full of beautiful flowers, fruits and vegetables.

Back to the financial knowledge piece - the more we know and the more we engage with professionals to help make good financial decisions, the better "growth" we can have in our quest for financial independence. Our philosophy at Presper Financial has always been to help lead clients in the best direction, but more importantly, to take the time to teach the concepts and strategies we recommend. We want clients to understand; which brings confidence in their decisions. We also encourage clients to do some of their own reading on financial subjects and if they have questions to reach out to us so we can help decipher and/or apply the concept to their situation. Knowledge is power.

So, as you take a break from working on your garden this spring, below are some interesting articles to help you participate in Financial Literacy Month. Stay safe and healthy!

Kind Regards,

*Tom*
